

Vision:

To make a significant contribution to the sustainable use of land with special drainage needs within the Board's area and to provide water level management on a daily basis through efficient, cost effective services, working in partnership with other bodies and operating within legislation.

Objectives:

1. Effectively and efficiently deploy available resources to manage water levels within the district (for land drainage, flood risk management & environmental benefit), working in partnership with other agencies.
2. Promote the ecological and environmental wellbeing of the district.
3. Play an active role in development planning decisions within and surrounding the drainage district.
4. Ensure that the Board complies with all legislative regulations and represents the district through elected and appointed membership.

Document Control

The River Lugg Internal Drainage Board will review the vision and objectives within one year of Board elections or as required e.g. changes to board area.
